

# FOB Device Job Aid

The **FOB** (Fixed Object) device is used to place secure and accurate EVV. When the power button is pressed, the FOB displays an encrypted 8-digit passcode which reflects the current date and time. Two codes, one generated at the start of the visit and one at the end, are required to place EVV using the FOB.

The image to the right illustrates the FOB Device, highlighting 3 areas:

1. The 8-Digit Passcode
2. The Power Button
3. The 6-Digit Device ID

To Clock In and/or Out using the FOB, call your Agency’s HHAeXchange phone number from ANY phone and follow the steps below:

Clock IN Steps	Clock OUT Steps	Clock IN and OUT Steps
<ol style="list-style-type: none"> <li>1. Press <b>3</b> to indicate “FOB Device” confirmation.</li> <li>2. Press <b>1</b> to indicate “FOB Clock In”</li> <li>3. Enter your <i>Assignment ID</i></li> <li>4. Enter the 6-Digit <i>Device ID</i></li> <li>5.
